Web Maintenance

Unlimited-user, web-based CMMS—the maintenance data you need, wherever and whenever you want it.

- Simple 'per-site' licensing model gives unlimited-user access
- Configured for both PC and touchscreen
- Accessible on the factory floor, in the workshop or from the office
- Easy-to-navigate schematic drilldown—find the required asset in seconds
- Add, edit or retrieve a work order in just a few clicks
- Keep close track of work order progress
- Full visibility of all outstanding jobs
- Monitor efficiency with built-in performance reports
- 'Shift log' feature enables reporting of minor lost-time incidents
- No client software—easy to install and stress-free to maintain
